

## **Offence Data for Average Speed Camera Systems During Roadworks**

*Data till end of June 2021 and correct as of 15<sup>th</sup> July 2021*

### **Overview of Content**

Offence data for existing or recently concluded average speed camera systems, operated as part of the Scottish Safety Camera Programme, will be published here on a 3 monthly basis and will show data from Apr-11 (where applicable).

Due to the process for driver identification and prosecution and the fact that the data is taken from a live system, the data published is subject to change and previously published data will be refreshed at each publication. This usually affects data for the last 6 months although it can also affect previous data.

Average speed camera systems are deployed at the road work locations below to ensure the safety of construction workers and road users.

Please note: During April – June 2020 Scotland was under local lockdown restrictions due to Covid-19.

### **Definitions**

	Definition
Offences	Total number of camera activations where an offence can be proven to have taken place.
COFPNs Issued	Total number of Conditional Offer of Fixed Penalty Notice (COFPN) issued, for offences committed within the period specified.
Reports to PF	Total number of offenders who have been reported to the Procurator Fiscal, either in place of a COFPN (e.g. excessive speed/foreign licence) or because the COFPN has not been paid, for offences committed within the period specified.
